PROJECTS

MERN LOGIN

Developed a secure user authentication system using the MERN stack. Backend deployed on Render integrates MongoDB, Express, React, and Node.js, while the frontend resides on Netlify. Empowers users to register and login securely. Moderate complexity.

REACT CONTACT MANAGER

Designed a React-based contact management and route planning application. Efficiently manages contacts using React, CSS, and the useState hook. Basic complexity project showcasing proficiency in React development.

ZINACOR

Developed a corporate website for a steel-selling company using HTML, CSS, and JavaScript. Featured a calculator for determining steel rates. Moderate complexity project highlighting design and implementation skills.

PORTFOLIO

Crafted a dynamic and visually appealing portfolio website showcasing diverse projects. Utilized CSS, Bootstrap, and typewriter effects for an engaging user experience. Implemented distinct styles for each project, highlighting proficiency in web development. Explore the live portfolio for a comprehensive overview of my skills and projects.
